Abstract

After the outbreak of the World, COVID 19 has been declared as a pandemic by WHO on March 11, 2020, and most of the states started their lockdown for controlling it. In India, the first lockdown announcement was in Kerala on 23rd March, and the rest of the country announcement on 25th March. And this lockdown impact was on every sector in our society. Due to COVID 19, most of the country quickly shut down to control it. Educational Institutions like other sectors(except few emergency services) and after few months much of the country starting online teaching-learning. Teachers' faced many challenges due to COVID 19 like the use of technology, e teaching, communication, student's performance evaluation, job security, etc. It also impacted teachers' performance as well as their effectiveness. A teacher is a social constructor as well as a nation builder. And the pivotal key of the qualitative Education system is teacher's effectiveness and accountability. The present study was conducted to discuss the challenges faced by teachers due to COVID 19. The main objectives of the study are to find out the and hindrances of teachers' performance due to the COVID 19 situation and critical analysis of the duties and responsibilities of teachers in
