INDIA

Respected Sir,

With due regards I am writing this mail with a proposal for collaboration between the Youtube Channel "The Uncertainty Principle: Your Career Guide" and your esteemed institute so that we can equip the young minds to face the uncertain future with confidence and undying optimism. "The Uncertainty Principle: Your Career Guide" is a Youtube Channel that aims to mentor young minds so that they can discover their own career knack and follow a career path which fits just perfect with their personality, preference, and life goals.

We wish to collaborate with your college because students who are at the age of attending college education are standing at a strange cross-road of multiple aspects of life: opportunities available to them in the socioeconomic structure, skills they need to possess and dreams they wish to fulfill. At this critical juncture of life, they badly need career support and expert guidance. In this scenario, the academic expertise of the faculties will be a great help for the students. Also, since the teaching faculties regularly and closely deal with the students, their experience and outlook will help us to widen our horizon since we primarily wish to design our programmes based on need of the student.

What we plan to do:

1. **Free of cost:** This is completely non-profitable.
2. **Need based program:** Collect feedback from the students on regular basis and organize various sessions with field experts in online platform based on what the students are looking for where students can ask their queries directly to the experts.
3. **One-to-one interaction:** Students can email or whatsapp their problems and queries. Based on that we plan to address their problems and if necessary, we will arrange personal mentoring sessions.
4. **Variety of topics:** Our topics range from science to humanities and from academia to industry.
5. **Special thrust on entrepreneurship:** We consider entrepreneurship as a very promising route to becoming successful in life and encourage the students regularly by providing start-up tips by prominent global start-up advisors.
6. **Unique aspects of a career path:** We highlight the aspects of social contribution unique to every single career option and how a student will be able to find job satisfaction by choosing the right path.

7. **Career anxiety and depression:** We arrange regular mental health sessions so that the students can fight career anxiety and depression and stay motivated and hopeful about their future.
8. **Students' experience sharing:** Students who are alumni of various institutions and have made it in their life will be asked to share their experiences and suggestions with the young aspirants.
9. **Scholarship schemes:** We discuss scholarship schemes to aid them financially.
10. **Skill training:** We have carried out skill training sessions on English communication and handicraft.
11. **Job oriented course updates:** We discuss job-oriented courses carried out by various institutes which might be suitable for the students.
12. **Job openings:** Since COVID period has robbed many of their livelihood, we try to back up students by letting them know about possible work from home job openings that they can pursue via smart phones.

Main objective of the project

1. To equip the underprivileged Bengali youth of rural area so that they can face the career challenges with hope and determination.
2. To bridge the information gap and provide greater exposure.
3. To provide a platform where students can share their problems and anxiety without hiccups.

Foreseen role of partner institute

1. To conduct career counselling programme in various branch where faculties in the institute can be resource person
2. To conduct special classes and utilize the academic expertise of the faculty members
3. To conduct mental health sessions and address career anxiety issues.
4. To conduct skill training sessions.
5. To interact with the students and understand their needs and weaknesses so that we can address them together.
6. To make a good use of the job market experience of the alumni of the institution. They can share suggestions and tips on how to prepare for certain field of study or professional area.
7. To conduct seminar/workshop/webinar in collaboration with various departments and sub-committees of the college.
8. Students of this college will be able to participate in various programs and act as volunteers in our joint projects.

Sincerely,

Dipjyoti Deb

12. **Job openings:** Since COVID period has robbed many of their livelihood, we try to back up students by letting them know about possible work from home job openings that they can pursue via smart phones.

Terms and Conditions

1. Initially the MOU will be effective for five years but may be extended if mutually agreed upon by both the institutes.
2. This MOU may be amended, renewed or terminated by mutual written agreement of the institutes at any time.
3. Either institute shall have the right to terminate this MOU upon 60 days prior written notice to the other institute.
4. Nothing contained in this MOU shall infer or create for either of the institutes, any right over the intellectual or physical property of the other institute.
5. There will be no financial commitment on part of this college.

Coordinators

Both institutes will designate persons who will have responsibility for co-ordination and implementation of this agreement.

Signed in Duplicate

This MOU is executed in duplicate with each copy being an official version and having equal legal validity. By signing below, the institutes, acting by their duly authorized signatories, have caused this MOU to be executed and effective from the day, month and year as first above written.

Dt

Dear Sir,

I have the honor to inform you that, as per the MoU signed, Haldia Government College has agreed to act towards the common goal of the MoU. **Dr. Debolina Das** of Haldia Government College, Head of the Department, Department of Physics, will serve as the college coordinator for this work. There will be no financial commitment on part of this college.

Following is a description of the effort and resources that Haldia Government College will commit to this project and how students will benefit from this MoU:

1. Organizing various career counselling programs involving faculties of this college.
2. Arranging interaction sessions with eminent alumni of this college who will talk about their journey and preparation strategy that took them to the position they are currently in.
3. Online workshops by faculties of this college that will help to promote ICT skill.
4. Faculties to be involved as program coordinator for programs that promote communication skill and life skill.
5. Students to actively participate in workshops and webinars so as to gain insight regarding various career routes.
6. Students will be given adequate infrastructure and guidance so that they can learn to communicate well and acquire ICT skill from our program.
7. Students who are interested to be an entrepreneur will actively participate in the one-to-one interaction sessions.
8. Faculties will communicate with the students on a regular basis and address issues regarding their mental health via program that deal with career anxiety and other depression issues typical of this age group.

Yours sincerely,

Dr. Pijush Kanti Tripathi
