

HALDIA GOVERNMENT COLLEGE

STUDENTS' FEEDBACK ANALYSIS

ACADEMIC SESSION 2021-2022

Introduction: Feedback helps to improve the quality of academic and infrastructural facilities in any institution. In Haldia Govt. College, students' feedback is collected through a feedback form to know their observation regarding several academic performances and infrastructural facilities of the college.

Section A covers the assessment of faculty performance in different departments of the college. Regularity, punctuality, course completion, communication, motivation, conceptual clarity, interaction outside class, complementing theory with practical example and overall performance of the department are the parameters in this section.

In most the parameters the students have given excellent and good. Only in computer and IT skills the faculties still need some improvement.

Section C and D assess the quality of central and departmental library facility in the college.

Problems identified from students' feedback are:

- Both central and seminar libraries need more of journals.

Section E, F, G and H covers students' observation regarding canteen, washroom, common room and sports activity respectively.

The main problems identified by the students are:

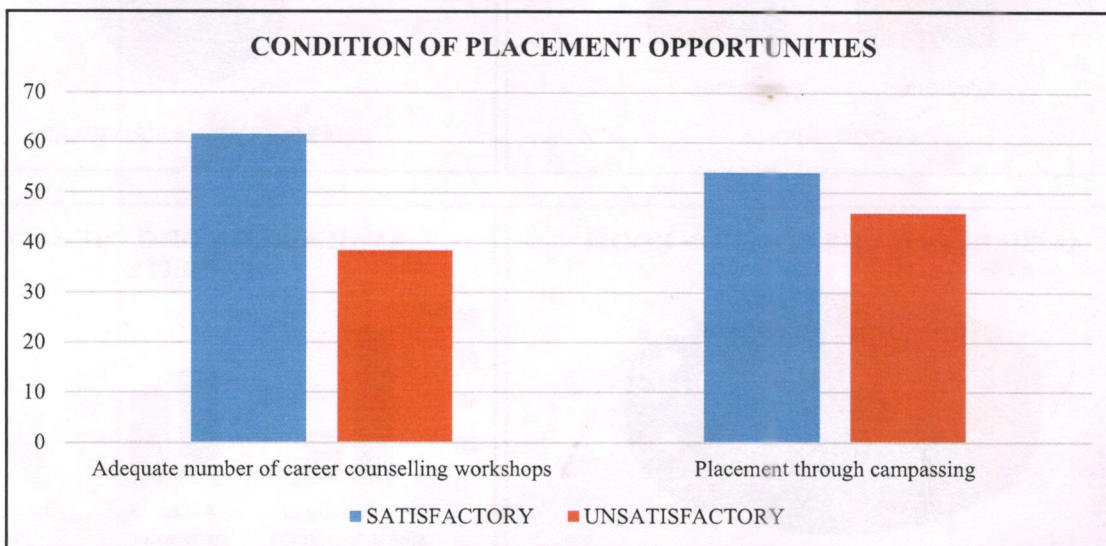

- Around half of the students think the cost of food need some reassessment in college canteen.

Section I and J covers students' observation regarding financial assistance and placement facility provided to them respectively.
